Hi Ken

Don't know if you remember us but the video that one of the best men took has been circulated and we now have a copy. Just wanted to let you know how amazed we were to see how busy you were during the day. You practically ran the whole event and certainly looked after everyone. We now realise why the day was such a success - you made it so.

Our warmest thanks to you for all your professionalism and empathy.

Please feel free to use this as a testimonial.

Kindest regards,

Barry and Sally.
